

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

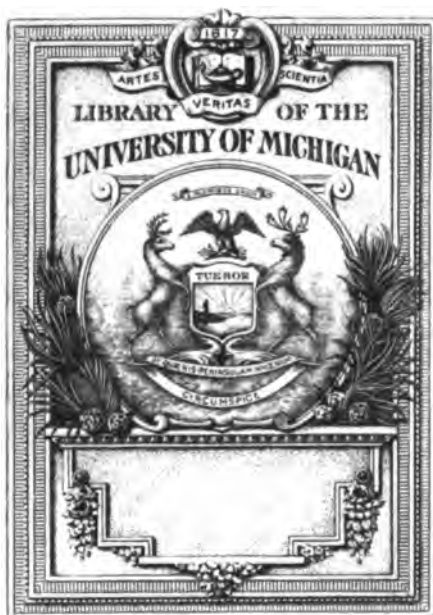

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

ISAAC BARBER.

IRVINE E. MAGUIRE, *Secretary,*

G. W. BARNARD, *Assistant Secretary,*

LOUIS FOCHT, *Chief Engineer.*

REPORT.

OFFICE OF THE STATE BOARD OF ASSESSORS,
TRENTON, N. J., October 31st, 1912.

To the Legislature of New Jersey:

Pursuant to the provisions of an act of the Legislature entitled "An act to revise and amend an act for the taxation of railroad and canal property, approved April tenth, one thousand eight hundred and eighty-four" (which revision was approved March 27th, 1888), and the various acts supplemental thereto, the State Board of Assessors herewith submit its Twenty-Eighth Annual Report, which report is, for reasons previously stated, divided into two parts—Part I showing the valuation and assessment of railroad and canal property, with the statistical tables and other information relating thereto; and Part II showing the assessments levied against miscellaneous corporations organized under the laws of the State of New Jersey, and also showing the assessment and apportionment of the franchise taxes levied under provisions of Chapter 195, Laws of 1900 and supplements, upon corporations using the public streets or otherwise.

There is a third volume which may properly be added to the above, and considered as the third volume of the Report of the State Board of Assessors for the same year. This volume contains the report of revaluation of railroads and canals, made by Mr. Charles Hansel, M. Am. Soc. C. E., Expert in Charge, pursuant to Chapter 307, Laws of 1910.

This latter volume or report was submitted to the Senate by Governor Wilson in a message dated January 22, 1912, and has been printed and distributed.

In pursuance of Chapter 307, Laws of 1910, Mr. Charles Hansel made an inventory and valuation of railroad and canal

property in New Jersey, which was presented by him to Governor Wilson and to the State Board of Assessors.

This new inventory and appraisal followed an actual survey and examination under the direction of Mr. Hansel of tangible property, real and personal, used for railroad purposes in this State. The valuations placed thereon were adopted by the State Board, except as to the land. This had been, both as to main stem lands and second class lands, appraised at the prevailing market rate for adjoining lands in the several taxing districts in the parcels of varying areas and shapes in which such adjoining lands happened to be divided, and without reference to cost of reproduction and present availability for railroad use. To get at the true value of main stem and second class lands it was necessary, in the judgment of the Board, to consider not only the local values of adjoining lands not actually in railroad uses, based on the several uses to which the adjoining land might be actually adapted or devoted (such as the factory use, the building use, the farming use, &c.), but also the cost of reproduction by present purchase and improvement to the physical condition at the time of appraisal, of an assembled similar area of main stem and second class real estate in and through the several taxing districts equally favorably situated and equally available for railroad uses. Giving proper weight to all these considerations, and rigidly excluding any value imputed to the land by its specific use under a railroad franchise, the true value of main stem and second class railroad property exceeded, in the judgment of the Board, the average market value of adjacent lands in the several taxing districts in the parcels of various areas and shapes in which said adjoining lands were divided for the uses (other than railroad uses) to which they were devoted or for which they were available. The necessary result was an increase in the land appraisals in Mr Hansel's report.

The formula devised by Mr. Hansel and adopted by the Board for determining the value of the "remaining property, including the franchise," was accepted as being a scientific method of determining the intangible value of railroad property; and, according to this formula, it makes no particular difference whether the value of the land in main stem is increased above the normal

value or not; for, under the formula, *any increase* in the value of the physical elements *decreases* the value of the franchise, and it is mainly because the Board has increased the valuation of land above the normal that the valuation of the franchise as returned by Mr. Hansel has been decreased. It is evident that *an increase* in the tangible value must of necessity *decrease* the intangible value.

In returning the value of the floating or marine equipment, Mr. Hansel included as in railroad use in this State all of the vessels in New York-New Jersey waters, owned or operated by the railroads operating in the State of New Jersey. In this the Board in its original assessment acquiesced.

The allocation of income and rolling equipment within this State as made by Mr. Hansel was accepted by the Board as being proper.

The inventory and appraisal thus made by Mr. Hansel, under legislative authority, and detailed in his report, modified only by the increase in land values above referred to, was adopted by the Board as the basis of its 1911 assessment, and the result certified as required by law to the Comptroller of the State.

The affected Railroad and Canal Companies very generally presented objections, in the manner prescribed by the statute, to the assessments certified to the Comptroller. Testimony was taken in all these cases, covering a period extending from December 20th, 1911, to October 1st, 1912. On these appeals, the Railroads set forth evidence relative to income assignable within New Jersey, and other matters of importance, which evidence led to the correction of obvious errors and in some cases influenced the Board to a different view concerning the situs of certain personal property. The Board approved Mr. Hansel's conclusion as to the rate of annuity, to be used as a factor in determining the franchise value.

Mr. Hansel's formula for determining the intangible value of the railroad presents a method of ascertaining this value entirely different from that hitherto pursued by the Board, and the principle on which it is based, viz.: that franchise value is measured by income-producing capacity, was not contested by the Rail-

road Companies. Two of the elements in the formula excited debate; first, the figure adopted as the annuity which when capitalized should represent the investment value of the property; and second, the proportion of earnings derived from an entire railroad system, both within and without this State, to be allocated to the State of New Jersey, taking into account the terminals of the system situated here. Mr. Hansel, in his valuation of the franchises, was obliged to rely on such information as to income and disbursements of the several railroad companies as he himself was able to accumulate, as the Railroads denied him access to their accounting records. When the appeals were being heard this policy was reversed, and the Board had the advantage of the actual figures from the books of the corporations. On the hearings the Board carefully considered the arguments presented to its attention as to the figure to be used for the annuity, and also considered the evidence submitted by the railroads from their books as to the amount of earnings, which were not available to Mr. Hansel when he made his report. The Board also had presented to it evidence as to the situs of certain personal property which was not available to Mr. Hansel. After considering all of the evidence the Board fixed the annuity at five and one-half per cent., and determined what it considered the fair amount of the gross earnings to be allocated to New Jersey, taking into account the terminals, and with these elements thus fixed by the Board, the computation as to franchises was made, resulting in the franchise assessment as finally found by the Board. These final figures adopted by the Board were subsequently accepted by the several railroad companies.

Certain differences in valuation of the physical property, some important and some unimportant, will be found between the original appraisal and the final assessment as made by the Board. Some of these were due to duplication, or error, or to additional information developed on the appeals. The changes made had the approval of Mr. Hansel. They resulted in reductions in the assessed valuations of the items affected. The transfer of lands from second class to third class also occasioned large reductions

by taking the amounts representing the transferred parcels entirely out of the Board's final assessment. The change in the figures of the floating equipment of the larger systems was due to the final conclusion of the Board to apply to all such equipment the same rule of valuation based on the proportionate time within the waters of this State. This was in the final judgment of the Board the proper rule under the statute law and secured equality in the application of the law without discrimination against domestic railroad companies.

In the records of the Board will be found the recommendations of Mr. Hansel where changes have been made from his original appraisement to the present assessment of the Board, together with a complete statement of the facts and testimony on which the change has been made.

Most, if not all, the changes made resulting in the reductions appearing in the assessment as finally made, would not have been necessary if Mr. Hansel and the Board had had available for their use the information disclosed on the hearing of the appeals. The original assessment in such case would have very nearly approximated the final figures.

Appeals on the part of the railroads, which grew out of the work of the State Board of Assessors, necessarily delay settlement for the full amount of taxes payable by the railroads to the State. A large part of this money, by law, is to be distributed into the various municipalities of the State for school purposes. The State Comptroller does not distribute this money until the *last dispute* with the railroads over each year's assessment is finally settled, either by this Board or by the Court. This practice has resulted in delays of as much as two years in the distribution of the money, which the railroads when they took appeals were required by the Court to pay into the State treasury. There seems to be no sound reason against distribution to the school districts of these moneys so paid on account.

We would respectfully submit to the Legislature the propriety on its part to make such an amendment to the law as would empower and require the State Comptroller and the State Treasurer to make a calculation based on the moneys received from

time to time, *as soon as received*, and distribute to the school districts such part thereof as the school districts would necessarily get without reference to such appeal and further providing for distribution of the balance when its amount shall be determined by the result of the litigation.

Railroads and Canals: In the assessment for the year 1911 of property used for railroad and canal purposes, there have been found one hundred and twenty-eight railroad corporations and one canal company subject to taxation under the Act; the particulars and details of which assessments are fully set forth in Schedule A of the appendix to this report; which schedule also gives in detail the items of "Second Class" railroad and canal property and the tax levied thereon at the following local rates of each municipality wherein such property is located.

Assessment of 1911: The following is a summary of the valuation and assessment of railroad and canal property for the year 1911:

Assessed valuation of main stem,	\$140,718,350 00
Assessed valuation of franchise,	35,346,622 00
Assessed valuation of tangible personal property necessary for and used in State commerce,	52,585,705 00
Total assessable for State uses,	\$228,650,677 00
Assessed valuation of real estate used for railroad purposes other than main stem,	95,890,440 00
Aggregate assessed valuation,	\$324,541,117 00
Tax for State uses at average tax rate of \$1.896 per \$100 valuation,	\$4,335,216 84
Tax for uses of taxing districts on real estate used for rail- road purposes other than main stem, at full local rates, ...	1,848,313 49
Total tax,	\$6,183,530 33

The above statement as compared with a similar statement for the year 1910 shows an increase in the valuation of property used for railroad and canal purposes, to the extent of \$37,994,664, and an increase in tax to the corporations of \$836,005.96.

It will be appreciated that the revaluation and appraisal of all of the railroad and canal property of this State was a colossal undertaking.

As a result, the annual income of the State and municipalities from railroad and canal property has been increased \$836,005.96.

The Board wishes to express to the Legislature its fullest appreciation of the value of the services of Mr. Charles Hansel, and its confidence in the integrity and intelligence with which he has performed his work. During the ten months of hearings on the appeals, the accuracy of his work has been fully tested.

Since our last report, the terms of Mr. Theodore Strong and Dr. Obadiah C. Bogardus have expired and they have retired from the Board, being succeeded respectively by Mr. George L. Record, of Jersey City, N. J., and Dr. Isaac Barber, of Phillipsburg, N. J.

Respectfully submitted,

CHARLES E. HENRICKSON, JR., *Pres't.*,
GEORGE E. HALSEY,
GEORGE L. RECORD,
ISAAC BARBER.

IRVINE E. MAGUIRE,

Secretary.

APPENDIX.

(13)

SCHEDULE A.

Assessments Levied by the State Board
of Assessors on Property of

Railroad and Canal Corporations

For Taxes of 1911.

Pennsylvania Railroad System.

BARNEGAT RAILROAD COMPANY.

MEASUREMENT OF MAIN STEM FOR THE YEAR 1911.

Length of main stem in New Jersey, 8.129 miles.

LENGTH OF MAIN STEM IN TAXING DISTRICTS.

	Miles.
Ocean county, Surf City borough,	1.146
Long Beach township,	3.330
Harvey Cedars borough,	1.979
Barnegat City borough,	1.674
Total miles,	8.129

VALUATION AND ASSESSMENT OF REAL ESTATE OTHER THAN MAIN STEM, FOR THE YEAR 1911.

Taxing District of Surf City Borough, County of Ocean.

DESCRIPTION OF PROPERTY.

Land outside main stem, excess east of main stem at Surf City station, 1.124 acres,	\$809 00
Land outside main stem, excess west of main stem at Surf City station, 1.124 acres,	809 00
Freight platform,	40 00
Passenger shelter, Surf City, 16 x 10 feet,	180 00
Freight platform,	65 00
Total value,	\$1,903 00
Local tax rate, \$1.99.	
Tax for taxing district,	\$37 87

Taxing District of Long Beach Township, County of Ocean.

DESCRIPTION OF PROPERTY.

Land outside main stem, excess east of main stem at Bailey station, 1.125 acres,	\$540 00
Land outside main stem, excess west of main stem at Bailey Station, 1.125 acres,	540 00
Land outside main stem, excess east of main stem at Bays Water station, 1.125 acres,	270 00
Land outside main stem, excess west of main stem at Bays Water station, 1.125 acres,	270 00
Land outside main stem, excess east of main stem at Long Beach Club station, 1.148 acres,	276 00
Land outside main stem, excess west of main stem at Long Beach Club station, 1.148 acres,	276 00
Passenger platform, Long Beach Club House,	20 00
Total value,	<hr/> \$2,192 00
Local tax rate, \$1.96.	
Tax for taxing district,	\$42 96

Taxing District of Harvey Cedars Borough, County of Ocean.

DESCRIPTION OF PROPERTY.

Land outside main stem, excess east of main stem at Harvey Cedars station, 1.148 acres,	\$413 00
Land outside main stem, excess west of main stem at Harvey Cedars station, 1.148 acres,	413 00
Land outside main stem, excess east of main stem at High Point station, 1.148 acres,	413 00
Land outside main stem, excess west of main stem at High Point station, 1.148 acres,	412 00
Passenger platform and shelter, Harvey Cedars, 5 x 22 feet,...	250 00
Passenger shelter, High Point, 16 x 11 feet,	280 00
Freight platform, High Point,	100 00
Total value,	<hr/> \$2,281 00
Local tax rate, \$1.99.	
Tax for taxing district,	\$45 39

Taxing District of Barnegat City Borough, County of Ocean.

DESCRIPTION OF PROPERTY.

Land outside main stem, excess east of main stem at Barnegat City station, 2.344 acres,	\$1,687 00
Land outside main stem, excess west of main stem at Barnegat City station, 2.555 acres,	1,840 00
Sidings outside main stem (in ballast), 139 feet,	91 00
Passenger station, Twelfth street, 34 x 31 feet,	1,200 00
Oil house, Twelfth street,	20 00
Two locomotive coaling platforms, Twelfth street,	200 00
Engine house, Twelfth street, 19 x 65 feet,	150 00
Passenger and freight station, Fourth street, 14 x 32 feet,	75 00
Freight house (old car body),	50 00
Total value,	\$5,313 00
Local tax rate, \$1.99.	
Tax for taxing district,	\$105 73

VALUATION AND ASSESSMENT FOR STATE AND LOCAL USES FOR THE YEAR 1911.

VALUATION.

Assessed valuation of the Barnegat Railroad—	
Main stem,	\$20,000 00
Franchise,	1,000 00
	\$21,000 00
Assessed valuation of tangible personal property necessary for and used in State Commerce,
Total assessable for State uses,	\$21,000 00
Assessed valuation of real estate used for railroad purposes, other than main stem,	11,689 00
Aggregate assessed valuation,	\$32,689 00

TAX.

Tax for State uses, at average tax rate of 1.896 per \$100 valuation,	\$398 16
Tax for uses of taxing districts on real estate used for railroad purposes, other than main stem, at local rates,	231 95
Total tax,	\$630 11

Sidings outside main stem (in ballast), 530 feet,	346 00
Cattle pens, Wilburtha,	50 00
Passenger and freight station, Wilburtha, 84 x 16 feet,	1,420 00
Passenger shelter, Scudders Falls, 8 x 10 feet,	164 00
Passenger station, Somerset, 14 x 24 feet,	421 00
Total value,	\$3,081 00

Local tax rate, \$1.35.

Tax for taxing district, \$41 59

Taxing District of Hopewell Township, County of Mercer.

DESCRIPTION OF PROPERTY.

Land outside main stem, excess south of main stem at Ewing township line, 6.694 acres,	\$402 00
Land outside main stem, excess south of main stem west of Titusville, 1.000 acre,	30 00
Land outside main stem, excess south of main stem west of Moore at Smith's Creek, 1.205 acres,	36 00
Passenger and freight station, Washington's Crossing, 16 x 63 feet,	1,150 00
Milk platform, Washington's Crossing,	20 00
Cattle pens, Titusville,	40 00
Passenger and freight station, Titusville, 42 x 20 feet—27 x 16 feet,	1,390 00
Milk platform, Titusville,	15 00
Milk platform, Moore,	15 00
Passenger and freight station, Moore, 12 x 36 feet,	590 00
Total value,	<u>\$3,688 00</u>

Local tax rate, \$1.60.

Tax for taxing district, \$59 07

Taxing District of West Amwell Township, County of Hunterdon.

DESCRIPTION OF PROPERTY.

Land outside main stem, excess south of main stem west of Hopewell township line, .302 acre,	\$12 00
Total value,	<u>\$12 00</u>

Local tax rate, \$1.553.

Tax for taxing district, \$0 19

Taxing District of Lambertville City, County of Hunterdon.

DESCRIPTION OF PROPERTY.

First Ward—

Land outside main stem, excess west of main stem in yard, 11.020 acres,	\$7,934 00
Graduation in yard,	35,500 00
Sidings outside main stem (in ballast), 170 feet,	164 00
Carpenter shop (brick) 69 x 84 feet,	3,960 00
Coal house (brick), 8 x 26 feet,	150 00
Three closets,	70 00
Blacksmith shop (brick), 36 x 52 feet,	1,200 00
Store house (brick), 28 x 52 feet,	2,230 00
Turn-table, 60 feet diameter,	2,730 00
Round house (stone), nine stalls,	6,980 00
Oil house,	275 00
Car inspector's office,	130 00
Storage shed,	40 00
Store house,	290 00
Tool house,	80 00
Car house, 20 x 74 feet,	570 00
Coal house and tin shop, 34 x 110 feet,	1,840 00
Ice house, 30 x 41 feet,	1,350 00
Water tank, 13 x 21 feet,	1,360 00
Cattle pen and ramp,	125 00

Second Ward—

Land outside main stem, excess west of main stem at Bridge street, .873 acre,	629 00
Land outside main stem, excess west of main stem at Coryell and Fish streets, .224 acre,	161 00
Graduation in yard, Bridge street,	3,983 00
Sidings outside main stem (in ballast), 4,562 feet,	3,562 00
Freight house (frame and stone), Lambertville, 86 x 45 feet— 83 x 35 feet,	4,030 00
Baggage room,	255 00
Passenger station (stone), Lambertville, 40 x 70 feet,	13,600 00
Signal store house, Coryell street,	340 00
Signal store house, Lambert street,	280 00
Signal store house, Lambert street,	101 00
Shed, Lambert street,	113 00
Carpenter shop (signal department), Lambert street,	578 00
Closet,	22 00
Coal box,	15 00

24 PENNSYLVANIA RAILROAD SYSTEM.

Third Ward—

Land outside main stem, excess west of main stem at Delaware township line, 6.672 acres, \$800 00

Total value, \$95,447 00

Local tax rate, \$1.698.

Tax for taxing district, \$1,620 69

Taxing District of Delaware Township, County of Hunterdon.

DESCRIPTION OF PROPERTY.

Land outside main stem, excess south of main stem at Stockton borough line, .896 acre, \$54 00

Land outside main stem, excess north of main stem at Raven Rock, .686 acre, 41 00

Sidings outside main stem (in ballast), 980 feet, 640 00

Passenger and freight station, Raven Rock, 18 x 73 feet, 1,679 00
